mufid.dev · github.com/iMufix · linkedin.com/in/mohamed-mufid-023b55256 · leetcode.com/u/Mufix7

MCA student at CEG, Anna University with hands-on experience in full-stack web development, cross-platform mobile development, and AI-powered application engineering. Proficient in Java, JavaScript, Dart, React.js, Node.js, Flutter, MongoDB, PostgreSQL, Firebase, and AWS with a strong foundation in Data Structures & Algorithms, Object-Oriented Design, and software engineering principles. Passionate about building scalable, production-ready applications with clean architecture, RESTful APIs, and secure authentication systems.

SKILLS

Programming: Java, JavaScript, TypeScript, Dart, SQL
Frontend: React.js, HTML, CSS, Tailwind CSS
Backend: Node.js, Express.js, RESTful API Design
Mobile: Flutter, Firebase Auth

Databases: MongoDB, PostgreSQL, Firebase, Firestore
Tools: Git, GitHub, Docker, Webpack, npm, AWS
AI & APIs: OpenAI API, Gemini API
Concepts: OOP, MVC, System Design, CI/CD

PROJECTS

University Grievance Management System

github.com/iMufix/grievance_system_uni

Stack: MongoDB · Express.js · React.js · Node.js

- Developed a role-based MERN application with JWT authentication and three-tier access control (Student, Officer, Admin).
- Built RESTful APIs for grievance submission, status tracking, image uploads, and resolution workflows.
- Implemented real-time dashboard analytics with MongoDB aggregation pipelines for reporting.
- Integrated AI-assisted support module and structured feedback system to streamline issue resolution.

Vitaboo

github.com/iMufix/Vitaboo

Stack: Flutter · Firebase Auth · Firestore · OpenAI API

- Engineered a cross-platform mobile health assistant in Flutter with Firebase Authentication and role-based session management.
- Architected Firestore database schema for user profiles, health records, and chat history persistence.
- Integrated OpenAI API to generate personalised health insights, diagnostics, and wellness recommendations.
- Designed modular widget architecture with state management for responsive, real-time UI updates.

EDUCATION

2025 – 2027 **MCA** Anna University, College of Engineering Guindy (CEG)

CGPA: 7.83

2021 – 2024 **BCA** Mohamed Sathak College of Arts & Science

CGPA: 7.467

Relevant Coursework: Data Structures & Algorithms · Database Management Systems · Operating Systems · Computer Networks · Software Engineering

SOFT SKILLS

Problem Solving · Leadership · Teamwork · Communication · Analytical Thinking · Adaptability · Time Management

TECHNICAL STRENGTHS

- Data Structures & Algorithms
- RESTful API Design & Backend
- Database Design & Optimisation
- Authentication & Authorisation
- Cross-Platform Mobile Dev
- AI/ML API Integration
- Version Control (Git/GitHub)
- System Design & Scalability
- Cloud (AWS)
- Object-Oriented Design
- Agile Development

ACHIEVEMENTS & ACTIVITIES

Competitive Programming

- Solve DSA problems on LeetCode and Codeforces covering arrays, trees, graphs, DP, and recursion.
- Strengthen algorithmic thinking through regular contest participation.

Leadership & Activities

- Organised and led a Web Development Workshop, training peers in HTML, CSS, JS, and responsive design.
- Mentored junior students in web development and coordinated hands-on technical sessions.

CERTIFICATIONS

Flutter & Dart - The Complete Guide

Udemy (Academind)

July 2026

MERN Stack Development

Pumo Technovation, Velachery

Expected Completion: 2026
